Mohammed Muaz Nazir Pathan

Margao, India 403602 | +91 9767702818 | muazpathan0416@gmail.com

PROFILE OVERVIEW

Results-driven retail operations professional with a proven track record in team leadership, cash management, and process optimization. Adept at leveraging data analytics and modern technology to streamline daily workflows, solve operational challenges, and improve store performance.

EXPERIENCE

Commercial Manager — *Reliance Trends - Margao* | ***12/2025 - 05/2026***

- Led **5 cashiers and 30 sales associates**, leveraging operational KPIs and transaction data to monitor team performance and business efficiency.
- Managed **POS and SAP transaction workflows**, including cash reconciliation, data validation, exception handling, and financial controls.
- Utilized **Excel and SAP** for transactional analysis, discrepancy identification, performance reporting, and data-driven operational decisions.

Asst. Department Manager — *ABFRL (Pantaloons) - Margao* | ***06/2024 - 12/2025***

- Managed **POS, cashiering, transaction processing, and departmental operations**, ensuring data integrity across daily workflows.
- Analyzed operational issues and transaction patterns to identify **process bottlenecks and improvement opportunities**.
- Built and maintained **Excel-based operational reports, reconciliations, and audit datasets**, ensuring data accuracy, consistency, and traceability.

EDUCATION

Bachelor's Of Computer Applications(Computer Science)
Shree Damodar College Of Commerce And Economics - Margao, 2027

PROJECTS

COMPASS — Collaborative Platform for Academic Reflection, Support & Success

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript, PHP, MySQL, Figma
Methodology: Design Thinking (User-Centered Design)

Objective: Develop a student-centric academic support platform that digitizes student-faculty communication, promotes collaborative learning, and provides structured academic support.

Key Features:

- Academic Q&A and discussion forum for student doubts and knowledge sharing.
- Anonymous question submission to support shy or hesitant students.
- Faculty & Mentor Connect for academic guidance and support.
- Moderated peer-learning and collaborative discussions.
- Searchable knowledge repository for previously resolved academic queries.
- Student reflection and feedback system for continuous improvement.

- Learning analytics dashboard for identifying recurring academic difficulties.
- Architecture designed for future integration of AI-based question categorization and intelligent knowledge search.

Key Benefits: Improves student engagement, enables structured academic communication, reduces repetitive queries, facilitates peer-assisted learning, and provides data-driven insights into student learning challenges.

SKILLS

- Inventory management
- Data analysis
- Excel and SAP
- Team leadership
- Client excellence
- Analytical problem solving
- Detail-oriented approach
- Communication skills
